 - Completed code debugging and implemented fixes to resolve problems based on priority system.
 - Produced high-impact, user-friendly websites that accomplished all business goals.
 - Coordinated system installations, testing and code corrections.
 - Modified existing software systems to enhance performance and add new features.

Customer Service Representative

Tim Hortons | Brampton, ON

- 08/2019 - 10/2020*
- Informed customers about billing procedures, processed payments and provided payment option setup assistance.
 - Assessed customer needs and upsold products and services to maximize product sales.
 - Educated customers on special pricing opportunities and company offerings.
 - Delivered high level of service and support to each customer, paving way for future business opportunities.

ACCOMPLISHMENTS

These are few spectacular projects by me

1) The-flipkart

- Link : <https://flipkart-clonee.herokuapp.com/>
- Description : The Flipkart is an E-Commerce website inspired by Flipkart (Indian E-Commerce) build on the top of the MERN stack. It has both

the customer & Admin portal which means not only this website will allow customers to buy products but also allow businesses to create a seller account on the site and start selling.

2) The-watch-store

- Link : <https://the-watch-store.herokuapp.com/>
- Description : The watch Store is an E-Commerce website for a watch business, build on the top of the MERN stack. It has an Admin portal which means not only this website will allow customers to buy products but also allow businesses to create a seller account on the site and start selling. It also has payment integration with stripe, so when you are done with your cart items, you can place orders easily. It has also been embedded with all frontend and backend validations.

3) Royal Traders

- Link : <https://royalstrader.com/>
- Description : It has landing page that I made for a sanitary fitting business.

4) The Foodetective

- Link : <https://the-foodetective.herokuapp.com/>
- Description : It is a online marketing platform made for small restaurants to make them have a presence online , and reach out maximum number of customers . The restaurant owners can add themselves on this website and the visitors can contact them through the information that they provide and view them.
